The Sydney Kart Racing Club came into existence in the early 1970's from the amalgamation of three existing clubs. These clubs were Camden ASI, Blacktown and Granville. The Granville club for instance held its first race meeting on Sunday, November 5, 1961.

Over the years the club has conducted race meetings at various tracks such as Granville, Londonderry and since 1979 at its current location Oran Park. We believe our Oran Park circuit is well favoured by the drivers and is one of the best spectator tracks in New South Wales.

During the years at Oran Park the club has held many major race meetings including a round of the Oceania Championships, numerous Australia versus New Zealand meetings. The club last held a round of the New South Wales Sprint Kart Championships in 1998.

With the opening of the Eastern Creek Kart Circuit, Sydney Kart Racing Club was offered the role of lead sprint kart club at the venue. Unfortunately it did not work out and the club moved back to Oran Park and by arrangement with the owner upgraded the kart circuit to what it is today.

We believe we are well run by a dedicated team and meet all the requirements to hold the Championships.

The Oran Park complex is readily accessible from the M5 the M7 and the M4.

From a track point of view we offer a 1060 metre circuit fully visible to all spectator areas. There are two Alfano Strips and a lap scorer's box which can also serve as a timing centre. At its narrowest the circuit is 11 metres wide and the areas which are on the main racing circuit are 13 metres wide. Corner catch traps are to CAMS standards. The areas surrounding the track are at least 15 metres from the nearest fence.
